## to whom it may concern

Transmeble International Sp. z. o. o. is our traditional and exclusive partner for all shows and special exhibitions in Poznan. This co-operation goes back to 1997 already.

They are very familiar with the special handling conditions of exhibition goods and have a great knowledge of Polish and international customs rules and regulations.

They always have proofed their outrages status as an international freight specialist.

Flexibility is the keyword in the international exhibition industry. And Transmeble is a good example for the deeper meaning of this attitude.
